PROFESSIONAL SUMMARY

AI-first Application Engineer and Full Stack Developer who builds production web apps with AI-assisted development, using Claude Code as a daily driver. Around 3 years working with AI coding tools, certified across Anthropic's Claude Code and AI Fluency programs. Strong with React, Next.js, TypeScript, Tailwind CSS, and PostgreSQL/Supabase, plus REST APIs, OAuth, and Git-based workflows (pull requests, code review, automated tests). Computer Science graduate, cum laude. Excellent written English, comfortable across global time zones and structured engineering processes.

TECHNICAL SKILLS

AI-Assisted Engineering: Claude Code (daily), Claude API, LLM API integration, prompt design, function/tool calling (MCP), Agent Skills, Subagents

Frontend: React, Next.js, TypeScript, Tailwind CSS, React Native, HTML/CSS

Backend & Data: Node.js, Express.js, Python, Laravel, REST APIs, PostgreSQL, Supabase, MongoDB, MySQL

Engineering Practices: Git, GitHub, GitHub Actions, Vercel, pull requests, code review, automated tests, documentation

Integrations & Security: Webhooks, OAuth 2.0, JWT, Stripe, WhatsApp/Meta APIs, GoHighLevel, API Security, Input Validation

EXPERIENCE

AI AUTOMATION & FULL STACK DEVELOPER | Digital Benefits Pte. Ltd. | Feb 2026 - Jul 2026

- Built production web apps for client businesses using AI-assisted development (Claude Code), delivering features independently and following structured engineering standards, pull requests, and code review.
- Shipped Beeva Command Center, a React operations dashboard and WhatsApp AI concierge that consolidated ~10,000 customers into one CRM and unified WooCommerce, Stripe, and WhatsApp order-taking into one automated pipeline. Stack: React, Express, PostgreSQL.
- Built SRC and The Meridian, GoHighLevel-integrated booking and operations platforms with JWT-secured flows, QR check-in, and management dashboards, wired via webhooks and OAuth. Stack: Node.js, Express (MVC), MongoDB.

DATA ENCODER | Dept. of Social Welfare and Development, Camarines Sur | 2022 - 2025

- Maintained accurate beneficiary and program records with strong data integrity across large datasets.

CERTIFICATIONS

- Anthropic - AI Fluency: Framework & Foundations (scored 10/10)
- Anthropic - Building with the Claude API
- Anthropic - Claude Code 101; Claude 101
- Anthropic - Introduction to Agent Skills; Subagents; Claude Cowork

PROJECTS

The Lumina - Property Management Platform | Full Stack Developer | Live

- Built a three-role (resident, management, guardhouse) platform for unit booking, guest QR check-in, and parcel logging, with real Stripe deposit payments and JWT auth across role dashboards.
- Stack: Node.js, Express, MongoDB, JWT, Stripe. Live: the-lumina-production.up.railway.app

Additional Projects

- ResqYOU - real-time emergency response and locator system with shortest-path routing (Dijkstra's algorithm).
- CYA FaithWear - full-stack e-commerce platform (catalog to checkout), Ateneo de Naga University.
- NagaMed - mobile clinic-booking and nearby-clinic discovery app driven by usage analytics.

EDUCATION

B.S. Computer Science, Cum Laude - Naga College Foundation, Inc. | 2022 - 2026

Dean's Lister (2022-2026); CCS Start-Up Bootcamp with LGU (2024); Idea2Startup Bootcamp (2023).
