Cum Laude Computer Science graduate with hands-on experience building and launching five real software systems for a company in Singapore. Comfortable handling a project from start to finish, from setting up the database to building the backend, the parts users see, and the documentation clients need. Also a Civil Service Professional eligible through honors graduation, and used to working with AI coding tools to build software faster without cutting corners on quality.

## EXPERIENCE

**Digital Benefits Pte. Ltd. — Full Stack Developer / GoHighLevel Workflow Developer** Apr 2026 – Jul 2026

*Full-Time | Remote | Singapore-based automation company*

- Built the Beeva Command Centre and Beeva Driving Portal, unifying inventory and orders from Lazada, Shopee, WooCommerce, Castlerock, and Beeva Wine & Spirits into a single platform with KPI dashboards, sales trend reporting, a loyalty coin/ranking system, and an automatic delivery route optimizer with live map tracking. Stack: HTML, CSS, JavaScript, PostgreSQL, GoHighLevel, Vercel.
- Built Apexlynx, a golf facility booking and reservation platform with WhatsApp integration and automated booking workflows. Stack: React, Node.js, MongoDB, Railway, GoHighLevel.
- Built VAMP, a live-music booking platform with a WhatsApp AI assistant that automates nightly lineups, contracts, and musician pay queries previously handled manually. Stack: React, Node.js, MongoDB, Railway, GoHighLevel.
- Authored technical operations, client handover, and security documentation for every system delivered.

**Digital Benefits Pte. Ltd. — Full Stack Developer Intern** Feb 2026 – Apr 2026

*Internship | Remote | Singapore-based automation company*

- Built SRC, a 3-portal booking and dining reservation system for the Singapore Recreational Club: a member portal for facility/dining booking, guest registration, notifications, and QR code generation; a staff portal for walk-in handling, QR-based check-in/validation, and live facility/dining capacity tracking; and a management portal with KPI overview and event broadcast notifications — all backed by automated email workflows.
- Built Meridian, a 3-portal condominium management system (resident, management, guardhouse) with automated email workflows. Stack: HTML, CSS, JavaScript, GoHighLevel, MongoDB.
- Converted the internship into a full-time offer after independently shipping both production systems within the 2-month internship period.

**Department of Social Welfare and Development (DSWD) — Data Encoder** 2022 – 2025

*Camarines Sur, Philippines*

- Maintained accuracy of beneficiary and program records across large government datasets, validating and correcting entries to prevent errors that could delay a family's benefit payment.

## PERSONAL PROJECTS

**CortexVault** — AI Knowledge Base *(Next.js, TypeScript, FastAPI, PostgreSQL, pgvector, Groq, Vercel)*

- Built a private AI knowledge base that answers questions from a user's own files and cites the exact source passage, so every answer is verifiable.

**SyncMind** — AI Meeting Assistant *(Next.js, Supabase, Groq, Vercel)*

- Built an AI meeting assistant that turns a recording into a transcript, clean notes, and an assigned action list, cutting out manual meeting write-ups.

**ScholarForge AI** — AI Study Tool *(React, TypeScript, Vite, Firebase, Groq)*

- Built a study tool that turns documents into quizzes and flashcards, checking each generated question against the source text so learners can trust it.

## EDUCATION

**Bachelor of Science in Computer Science, Cum Laude** 2022 – 2026

Naga College Foundation, Inc., Camarines Sur, Philippines | General Weighted Average: 1.57 (1.00 highest) | Dean's Lister, 2022–2026

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Python

**Frontend:** React, Next.js, HTML5, CSS3, Tailwind CSS

**Backend:** Node.js, Express.js, FastAPI, REST APIs, JWT/OAuth

**Databases:** PostgreSQL, MongoDB, Supabase, Firebase

**Platforms & Tools:** Vercel, Railway, GoHighLevel, Git, Google Sheets/Docs

**AI & Automation:** Claude Code, Codex, RAG/Embeddings, Workflow Automation, WhatsApp API Integration

## CERTIFICATIONS & ELIGIBILITY

- Civil Service Eligibility: Professional (Honor Graduate Eligibility, via Cum Laude graduation)
- Anthropic AI Certifications (7): AI Fluency – Framework & Foundations; Claude with the Anthropic API; Claude Code 101; Claude 101; Introduction to Claude Cowork; Introduction to Subagents; Introduction to Agent Skills
