

BRIXSONN MOJAL ROMERO

Naga City, Camarines Sur, Philippines | +63 948 571 6293 | brixdodd07@gmail.com
linkedin.com/in/brixsonn-romero-0b18b9327

Detail-oriented and highly organized Computer Science graduate with professional experience building websites and systems using Claude Code and a strong background in data work. Experienced in delivering client projects from start to finish, both independently and as part of a team. Comfortable building and integrating systems on the backend as well as collecting, cleaning, and analyzing data to surface useful insights and support better decisions. Adaptable and fast-learning, comfortable working with minimal supervision, and open to further training and upskilling to grow as both a developer and a data analyst.

EXPERIENCE

Digital Benefits Pte. Ltd. - GHL Automation Builder, Integration & Backend Apr 2026 - Jul 2026
Full-Time | Remote | Singapore

- Integrated GoHighLevel, Stripe, and calendar APIs into unified client backends, replacing fragmented manual processes with one connected system.
- Built VAMP, a live-music booking platform with a WhatsApp AI assistant, automating nightly lineups, contracts, and musician pay queries previously handled by hand.
- Delivered Beeva, a dashboard that unifies orders from several online stores for ~10,000 customers, giving the team one view of sales trends and order status.

Digital Benefits Pte. Ltd. - GoHighLevel Workflow Builder Feb 2026 - Apr 2026
Internship | Remote | Singapore

- Built SRC, a Singapore Recreation Club platform with QR check-in and an admin dashboard reporting bookings, reservations, occupancy, and no-shows.
- Developed The Meridian, a condominium portal linking residents, management, and guardhouse on one backend for bookings, deposit payments, QR visitor passes, and maintenance reports.
- Shipped both production systems within the 2-month internship, earning a full-time offer.

Department of Social Welfare and Development (DSWD) - Data Encoder 2022 - 2025
Camarines Sur, Philippines

- Encoded and validated beneficiary and program records, running consistency checks on names, addresses, and eligibility fields to catch errors before they delayed a family's benefit payment.
- Cleaned and reconciled large datasets across program cycles, resolving duplicate and mismatched entries against source documents to keep records audit-ready.

PROJECTS

CortexVault - AI Knowledge Base

- Built an AI knowledge base that answers questions from a user's own files and cites the exact source, so every answer is verifiable.

SyncMind - AI Meeting Assistant

- Built an AI meeting assistant that turns a recording into notes and an assigned action list, cutting manual meeting write-ups.

ScholarForge AI - AI Study Tool

- Built a study tool that turns documents into quizzes and flashcards, checking each question against the source so learners can trust it.

EDUCATION

B.S. Computer Science, Cum Laude 2022 - 2026
Naga College Foundation, Inc. | Dean's Lister, 2022 - 2026

CORE SKILLS

- AI Automation** - Creates automated systems for email, booking, and CRM workflows.
- Conversational AI & Chatbot** - Builds chatbots and conversational AI in GoHighLevel, backed by a knowledge base.
- Backend Development** - Builds server-side applications and APIs with Node.js and Express.js.
- Data Analysis & Entry** - Cleans, validates, and analyzes data with MS Excel, Google Sheets, and SQL.
- Dashboard & Reporting** - Builds dashboards that pull key data into one view to support decisions.
- AI-Assisted Development** - Builds features with Claude Code while reviewing the output for correctness.
- Problem Solving & Debugging** - Traces issues to their root cause and fixes them methodically under real deadlines.
- Collaboration & Communication** - Turns client needs into working software and explains decisions clearly to the team.
- Database Management** - Designs, queries, and maintains relational databases with attention to data integrity.

CERTIFICATIONS & ELIGIBILITY

- Civil Service Eligibility: Professional (P.D. 907 / Honor Graduate Eligibility).
- Anthropic AI coursework (7): AI Fluency, Claude and the Anthropic API, Claude Code, Claude Cowork, Subagents, and Agent Skills.
