

BRIXSONN MOJAL ROMERO

AI-Native React & Next.js Developer

Naga City, Camarines Sur, Philippines 4400 | +63 948 571 6293 | brixdodd07@gmail.com

PROFESSIONAL SUMMARY

Results-driven full-stack developer with hands-on production experience building CRM integrations, workflow automation, and conversational AI systems for clients in Singapore. Proven ability to build products end-to-end, from database design to deployment, using React, Next.js, and AI-assisted development workflows without sacrificing engineering rigor. Skilled in JavaScript/TypeScript, Node.js, REST API development, and PostgreSQL to ship reliable, secure web applications and streamline business operations. Cum Laude Computer Science graduate with Civil Service Professional eligibility and seven Anthropic AI certifications.

PROFESSIONAL EXPERIENCE

Digital Benefits Pte. Ltd.: Full Stack & Automation Developer | Apr 2026 – Jul 2026

Full-Time | Remote | Singapore-based automation company

- Built and maintained production automation platforms for live-event, hospitality, and concierge clients, integrating CRM (GoHighLevel), payments (Stripe), and calendar systems into unified operational workflows.
- Developed VAMP, an operations platform for a live music booking agency (Singapore) that builds nightly show lineups, manages contracts and payments, and runs a WhatsApp AI assistant that answers musicians' gig and pay questions in real time.
- Built Apexlynx, a golf concierge and booking platform spanning four secure portals (card members, golf clubs, bank call centers, operations) with WhatsApp/email automation and full booking audit logging.
- Delivered Beeva, an operations hub for a wine and spirits retailer that consolidates orders and stock from WooCommerce, Lazada, and Shopee into a single CRM serving roughly 10,000 customers, with automated driver routing and proof-of-delivery capture.

Digital Benefits Pte. Ltd.: Full Stack Developer Intern | Feb 2026 – Apr 2026

Internship | Remote | Singapore-based automation company

- Built SRC, a club management platform for Singapore Recreation Club covering facility/dining/event bookings, QR check-in, and live occupancy dashboards for management, synced with the club's CRM.
- Built The Meridian, a condominium portal connecting residents, management, and guardhouse across three linked interfaces on one shared backend, covering facility bookings, deposit payments, QR visitor passes, and maintenance reporting.
- Converted internship into a full-time offer based on delivery of both production systems within the internship period.

Department of Social Welfare and Development (DSWD): Data Encoder | 2022 – 2025

Camarines Sur, Philippines

- Maintained accuracy of beneficiary and program records across large government datasets, handling intake, validation, and correction where a single erroneous entry could delay a family's benefit payment.

PERSONAL PROJECTS

SchoolPulse | Next.js, TypeScript, PostgreSQL, Prisma, Tailwind CSS

- Built a multi-tenant school management platform serving 14 distinct roles under one login, with strict data isolation across schools and a full audit log for grades, attendance, incidents, and admissions.

CortexVault | Next.js, TypeScript, FastAPI, PostgreSQL, pgvector, Groq

- Built a private AI-powered knowledge base with hybrid keyword and embedding search that cites the exact source paragraph for every answer, secured with two-factor authentication.

StayFlow | React, TanStack Start, Node.js, Express, Prisma, PostgreSQL

- Built a three-role residential community app (residents, staff, management) with server-enforced permissions, validated by a 151-case test matrix totaling 524 automated tests.

Marram | Next.js, TypeScript, Neon Postgres, Drizzle ORM, NextAuth

- Built a full-stack wedding planning platform combining a public content and vendor directory with a private couples' dashboard for budget, guest list, and RSVP management.

The Lumina | JavaScript, Node.js, Express, MongoDB, Stripe

- Delivered a live three-portal property management platform enabling residents to book facilities, register guests, and pay deposits via real-time Stripe checkout.

North Star | Next.js 16, React 19, TypeScript, Tailwind v4, Zustand

- Built an auto parts e-commerce shop around vehicle fitment, checking every listing, filter, and cart line against a real make/model/year table, with a live fitment filter narrowing results in real time.

SyncMind | Next.js, Supabase, Groq

- Built an AI meeting assistant that turns a recording into a clean transcript, plain-English notes, a to-do list with owners and due dates, and a follow-up email draft, with AI guesses explicitly flagged.

ScholarForge AI | React, TypeScript, Vite, Dexie/IndexedDB, Firebase, Groq

- Built a tool that turns PDFs, slide decks, and notes into quizzes and flashcards processed on-device; every generated question is server-verified against real source text, with wrong answers linking back to the source passage.

CYA Daily Verse | Next.js 16, React 19, TypeScript, MongoDB, Resend

- Built a devotional app for a youth ministry featuring a daily Bible verse, reading plans, a prayer wall, and community event listings.

Liters Cafe | Next.js, TypeScript, Tailwind CSS

- Built a menu and ordering site for a Naga City cafe, including a build-your-own milk tea flow with live price updates and one-tap Messenger ordering with the order pre-written.

EDUCATION

Bachelor of Science in Computer Science, Cum Laude | 2022 – Jun 2026

Naga College Foundation, Inc. | Dean's Lister, 2022–2026

Senior High School, Computer System and Servicing (TVL Strand) | 2019 – 2021

Camarines Sur National High School

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React, React Native, Next.js, Vite, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs, API Integration, JWT / OAuth

Database: PostgreSQL, Supabase, Firebase

Platforms & Tools: Vercel, Railway, Cloudflare Workers, Stripe, GoHighLevel, Git

AI Development: Claude Code, Codex, DeepSeek, Kimi, Grok, Groq, Gemini, RAG / Embeddings

CERTIFICATIONS & ELIGIBILITY

- Civil Service Eligibility: Professional (Granted via P.D. 907 / Honor Graduate Eligibility)
- Anthropic Certifications: AI Fluency – Framework & Foundations; Claude with the Anthropic API; Claude Code 101; Claude 101; Introduction to Claude Cowork; Introduction to Subagents; Introduction to Agent Skills
